

Make Fruit Fair!

Banana Link is a not-for-profit co-operative based in Norwich. We raise awareness of the poor living and working conditions faced by plantation workers and small producers in Latin America, Africa and the Caribbean.

- Bananas are the single most profitable item sold in UK supermarkets.
- Banana workers in Cameroon earn less than a third of what they need to cover their most basic needs such as feeding and educating their families.
- For every £1 you spend on a Costa Rican pineapple in the UK, just 4p of this goes to the workers.
- Plantation workers in Latin America have little protection from toxic pesticides and as a result thousands of these workers have been left sterile.
- In Guatemala, seven members and ex-members of a banana workers' trade union – defenders of human rights – have been murdered in one year alone.

Your support can help us work to change this. Buying tropical fruit is often the closest relationship any of us have with the developing world. The consumer choices we make can – and do – have a direct impact on how people are employed and paid, and how their environment is treated.
